### PROFILE

Software engineering student building fullstack web, mobile, and desktop applications with React, React Native, Next.js, Electron, and Django. Hands-on with offline-first architectures, real-time systems, and Linux, Docker, and CI/CD workflows. Seeking a **Fullstack Development & DevOps internship** to contribute to high-impact technical projects.

### EDUCATION

**Higher Institute of Applied Sciences and Technology – ISSAT Sousse** | 2022–2027

Engineering Degree in Software Engineering

### PROFESSIONAL EXPERIENCE

**Software Engineering Intern – Digilife, Startup** | Jun 2026 – Jul 2026 (2 months)

Point-of-sale system for a retail store: Electron desktop app paired with a synced mobile barcode scanner.

- Built the desktop POS with **Electron.js**, a local **SQLite** database, and **80 mm thermal receipt printing**.
- Delivered a **React Native** scanner app; catalogued **112 products** through barcode scanning.
- Architected **offline-first** synchronization between both clients through **Supabase**.
- Secured sensitive actions with **email OTP** validation and **6-digit backup admin keys**.

**Café POS Extension – Mobile Ordering Bridge (Freelance Project)** | 2026

React Native, Supabase Realtime, Windows Service, SQL Server

- Reverse-engineered a closed **Delphi POS** to extend it without vendor support or a public API.
- Built a **React Native** app letting **3 waiters** take orders simultaneously from their phones instead of queuing at the POS PC, improving service during rush hours.
- Bridged the POS to a **Supabase** socket through a **Windows service**, using a commands table as a queue.

**Gaya Coffee – Menu Website with Admin Panel (Freelance Project)** | 2026

Next.js, TypeScript, Supabase, Vercel

- Built a mobile-first menu site with category navigation and item detail views.
- Delivered an admin interface for staff to edit the menu; deployed on **Vercel** with **Supabase** as data source.

**Software Engineering Intern – Smooth Algo, Startup** | Jun 2025 – Jul 2025 (7 weeks)

Internal company communication app, delivered as a React web app and a React Native mobile app.

- Built real-time audio/video calls, screen and media sharing with **WebRTC** and **WebSocket**.
- Designed meeting administrator roles and privileges.
- Delivered **email OTP** authentication (NodeMailer) and media storage on **Google Cloud Storage**.
- Optimized APK size from **248 MB to 153 MB** (-38%) to improve mobile distribution.

### ACADEMIC & PERSONAL PROJECTS

**Fullstack Chess Game** | 2024

React, Express.js, MongoDB, Three.js, WebSocket, JWT

- Built the game logic from scratch after studying move-generation algorithms: legal moves, check, checkmate, castling, en passant.
- Delivered real-time matches over **WebSocket** with **JWT** authentication and **Three.js** 3D models.

**Final-Year Project Management Application – Academic Project** | 2026

Django, TypeScript, React

- Built role-based interfaces and **REST APIs** for students, teachers, and administrators.
- Designed defense-scheduling algorithms and a responsive management frontend.

**School Management System** | 2025

Django, React, PostgreSQL, Google Cloud Storage

- Delivered attendance tracking, announcement publishing, and secure PDF upload.

### SKILLS

**Languages:** JavaScript, TypeScript, Python

**Frameworks & Libraries:** React.js, React Native, Next.js, Redux, Node.js, Express.js, Django, Electron.js, REST APIs

**Databases:** PostgreSQL, MongoDB, SQLite, SQL Server, Supabase

**DevOps & Cloud:** Linux, Docker, CI/CD (GitHub Actions), Cloudflare, Vercel, Google Cloud Storage

**Real-Time & Protocols:** WebRTC, WebSocket, Django Channels, Supabase Realtime

**Authentication & Security:** JWT, OTP, NodeMailer

**Methods & Tools:** Agile/Scrum, Git, GitHub, Figma, Canva, Adobe Photoshop

### ASSOCIATIONS

**Microsoft Club – ISSAT Sousse** – Head of Media Department

2025–2026

**Microsoft Club – ISSAT Sousse** – Intermediate React Web Trainer: **12 workshops**, 10–14 students each

2024–2025

**CyberTrace Club – ISSAT Sousse** – Technical Core Member

2023–2024

### LANGUAGES

**Arabic:** Native   **French:** Fluent   **English:** B2+
